ESTABLISHED INTERNATIONAL PARTNERSHIPS

Hungarian Ecumenical Relief Service in Ukraine,
Czech Republic, St. Andrew's Japanese School,
SavED International Charitable Foundation,
International Organization for Migration.

UNBREAKABLE 2022

"Through the thorns to the stars" or the story of the Bobrytsky gymnasium and preschool unit affected by the Russian occupation

DESTRUCTION AND DAMAGE

According to technical reports:

Bobrytska gymnasium is damaged to 50%: 164 windows, roof, external wall, equipment, doors, fire alarm, stairs, heating, electricity, classrooms, sports ground with artificial turf, fence, computer equipment (looted).

Preschool unit up to 40%: windows, exterior and interior walls, roof, doors, fire alarm, electricity, catering unit, playgrounds, furniture, fence, doors.

HOW DID WE SURVIVE?

During the occupation, the russian army lived in educational institutions for a month from 08.03.2022, leaving the village of Bobryk, they hit the center of the building, the shell hit the Christmas trees, which took the blow "on themselves" (even nature was on our side). The blast wave and debris knocked out and damaged the roof, completely windows, doors, ceiling, classrooms, dining room, etc.

It is thanks to the Christmas trees that the educational institution has been preserved.

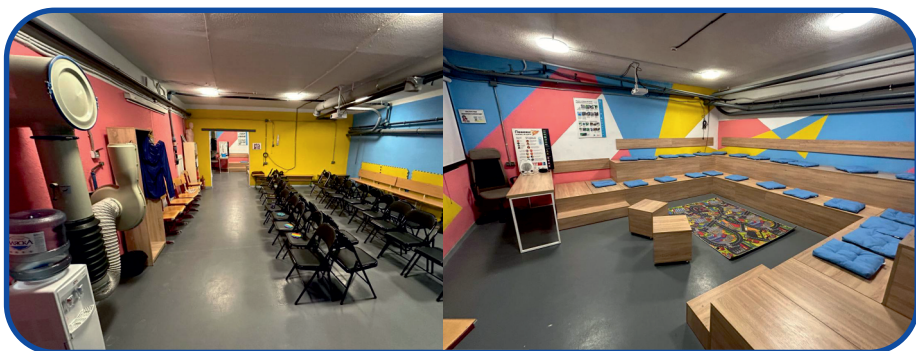

COMPLETED PROJECTS

**"We are not waiting for a miracle, we create it ourselves!
Let's go forward through the thorns to the stars..."**

Project "Change in 7 months" - the organizers of the All-Ukrainian project are EdCamp Ukraine. This is not only about financial support for the institution, but also about sustainability-oriented approaches in the educational institution, about participation in pilot public accreditation. The project was implemented with the support of Save the Children in Ukraine and Education Cannot Wait ECW.

Project cost: UAH 700,000. (2023).

The "Safe Space" project is a comfortable and safe environment thanks to the financial support of the Hungarian Ecumenical Relief Service in Ukraine, which was used to repair the radiation shelter of the institution and equipped with podium furniture.

Project cost: UAH 943,666. (2023)

The project "Restoration of a sports ground damaged as a result of occupation" is aimed at creating a safe space for the physical development of young people and community cohesion. The project was implemented with the support of the International Organization for Migration (IOM) within the framework of the protection program through a project of the United States Agency for International Development (USAID) and co-financing of the Velyka Dymer Village Council.

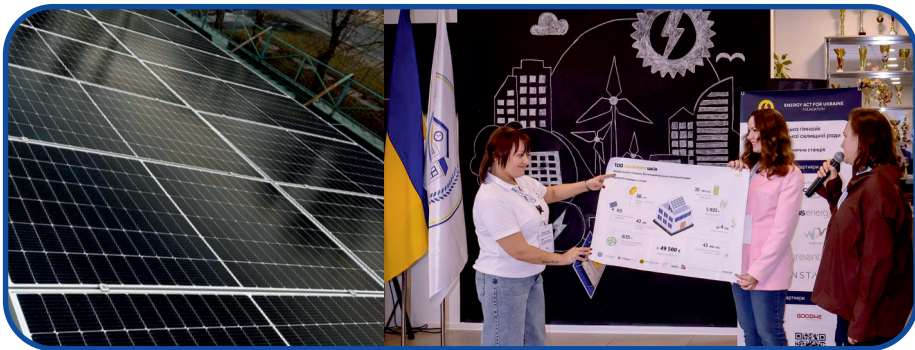

Project cost: UAH 760,000. (IOM) and UAH 287,000. (local budget) (2023 – 2024)

The project "Overhaul of the food unit as a result of its damage from the military aggression of the Russian Federation" is the creation of modern cooking conditions to provide all participants in the educational process with rational, safe and high-quality food, the introduction of new cooking technologies, increasing the energy efficiency of the food unit, and preserving the health of participants in the educational process. The project was implemented with the support of the Velyka Dymer Village Council.

Project cost: UAH 1,567,000. (2023)

IMPLEMENTATION OF STRATEGIC PROJECTS

The project "Renewable Energy Sources for a Sustainable Ukraine" (construction of a solar station with electricity storage systems) was implemented by GIZ on behalf of the German government in cooperation with a consortium of public organizations: Ecoclub, Ecoaction, Energy Act for Ukraine Foundation and RePower Ukraine Charitable Foundation.

Project cost: 49,500 euros (2023-2024)

The project "Repair of the blind area, entrance groups and basement in the building of the preschool unit" was implemented by the NGO "SV-Platform". The funding was received within the framework of the project "Support to the Recovery of Ukraine", implemented by Helvetas Swiss Intercooperation as part of Switzerland's support to Ukraine with funding from Swiss Solidarity.

Project cost: UAH 1,037,800. (2024)

WE ARE LOOKING FOR PARTNERS TO IMPLEMENT PROJECTS FOR RECOVERY AFTER THE OCCUPATION

"Overhaul of the façade of the building (wall insulation) of the Bobrytska Gymnasium of the Velyka Dymer Village Council" as a result of its damage from the military aggression of the Russian Federation.

Estimated cost of the project: 106,000 thousand Euro.

"Overhaul of the dining room in the building of the Bobrytska Gymnasium of the Velyka Dymer Village Council" as a result of its damage from the military aggression of the Russian Federation.

Estimated cost of the project: 45,000 thousand Euro.

"Overhaul with the implementation of energy saving measures (façade insulation) of the building of the preschool unit of the Bobrytska Gymnasium of the Velyka Dymer Village Council, damaged as a result of the armed aggression of the Russian Federation against Ukraine."

Estimated cost of the project: 218,000 thousand Euro.

"Overhaul of the roof with the implementation of energy saving measures (attic insulation) of the building of the preschool unit of the Bobrytska gymnasium of the Velyka Dymer village council of the Brovary district of the Kyiv region, damaged as a result of the armed aggression of the russian federation against Ukraine".

Estimated cost of the project: 121,000 thousand Euro.
