

THE PROJECT OF CAPITAL REPAIR OF THE FACADE OF THE BOBRYTSK GYMNASIUM, WHICH SUFFERED AS A RESULT OF THE AGGRESSION OF THE RUSSIAN FEDERATION

Warming the facade of the school will make it possible to significantly change the use of energy resources and provide a comfortable microclimate of the premises, as well as save the building from destruction and ensure proper sanitary and hygienic conditions for children at school.

Tasks of the project:

- create favorable conditions for obtaining quality education;
- to promote the preservation of the health of all participants in the educational process;
- to establish conditions for further improvement of the demographic situation in the community;
- reduce expenses for the maintenance of the educational institution.
